### **DOYLE ANNOUNCES *GreatRebate* FOR INTEGRATED NANO-TECHNOLOGIES**

***Equipment Purchase will help Henrietta Company Create & Retain 21 Jobs***

County Executive **Jack Doyle** today announced that Monroe County has approved a *GreatRebate* incentive for Integrated Nano-Technologies in the Town of Henrietta. The *GreatRebate* program will assist Integrated Nano-Technologies in the purchase of a laser etcher, semiconductor analyzer, and a phospho imager, which will help the company expand its operations and retain 19 jobs and create 2 additional positions.

“Cutting edge technology will provide the foundation for the future of our economy and boost our ability to create jobs,” said Doyle. “Integrated Nano-Technologies is at the forefront of these efforts, and through the *GreatRebate* program we are working with them to provide jobs and paychecks for working families.”

Under the *GreatRebate* program, applicants can qualify for a \$4,000 rebate for equipment purchases exceeding \$50,000 if they increase jobs by ten percent over two years. The rebate will be paid at the end of the two-year period, once the required jobs have been created.

Integrated Nano-Technologies is a research and development company and manufacturer of an electronic DNA system.
